We closed this first year as a public company with very positive results. We achieved revenue growth of over $20 \%$ vs 2007 and our operating margin increased from $20 \%$ to $27 \%$ for the full year 2008. Our net income, excluding a one-time, non-cash, non-tax, impairment, was $\$ 420$ million, above our $\$ 400$ million target. We also reached the goals we had set back in June. We have set the ground work for our corporate restructure, we increased our trading and access fees, launched new products, increased our information services and continued investing in the latest technology. Additionally, since February the Bolsa's share is part of the IPC index.

Our net income goal for 2009 is 550 million pesos, this represents a $31 \%$ increase vs our 2008 net income, excluding the one-time, non-cash impairment. In order to achieve this goal we will be implementing cost reductions which will come from reduced headcount, technology maintenance expenses, as well as cost controls in our ongoing operating expenses. Our growth initiatives and our cost reduction plan will help us to increase our operating margin to 39\% for the full year 2009.

[^0]Mexico City, February 19, 2009, The Bolsa Mexicana de Valores, S.A.B. de C.V., "the Bolsa, the institution, the Company, or BMV" (BMV: BOLSA A), announced today its results corresponding to the fourth quarter of 2008. Figures corresponding to the fourth quarter of 2007 presented in this report are expressed in million pesos ("mp") with purchasing power as of December $31^{\text {st }}, 2007$, unless otherwise stated. Figures for 2008 are expressed in current pesos.

## Revenues

During the fourth quarter of 2008, the Bolsa registered revenues of 370.1 million pesos, 90.1 million pesos above those in 2007, increasing $32.2 \%$. The increase stems from the following:

| 4Q08 | (mp) |
| :--- | ---: |
|  |  |
| Trading Fees | -14.6 |
| Listing Fees | 4.7 |
| Market data sales | 45.5 |

| Member Fees | 11.7 |
| Custody Clearing and Settlement | 44.5 |
| Rents | -2.3 |

* These revenues are lost once CCV and Asigna results are consolidated.

In accumulated terms, total revenues are $1,233.6$ million pesos, increasing $22.1 \%$ or 223.3 million pesos when compared to the same year-ago period, mainly due to the following:

| 2008 | (mp) |
| :--- | ---: |
|  |  |
| Trading Fees | -30.8 |
| Listing Fees | 34.1 |
| Market data sales | 120.7 |

[^1]Indeval revenues for the full year 2008 were 273.0 million pesos, $13.0 \%$ above the 260.0 million pesos registered in 2007.

## Expenses

At the close of 2008 's fourth quarter, expenses amounted to 298.1 million pesos, increasing $33.8 \%$ when compared to 4 Q 07 . The increase in expenses mainly stems from an increase in personnel expenses as a result of severance payments from our head count reduction. Also during the fourth quarter we upgraded technology in the Bolsa, Asigna and the CCV and MexDer implemented a new trading screen. There is also an increase in rent, and maintenance as well as consulting fees for several projects.

During the period January to December 2008, the expenses rose by $12.4 \%$, from 801.5 million pesos in 2007 to 900.6 million pesos this year. This increase is explained by the fourth quarter increases as well as the acquisitions of Asigna and the CCV during 2008.

Indeval expenses for the full year 2008 were 190.1 million pesos, $5 . \%$ below the 200 million pesos registered in 2007.

## EBIDTA

At the close of the fourth quarter, the operating income plus the depreciation and amortization (EBIDTA) amounted to 85.5 million pesos, which favorably compares to the 73.7 million pesos registered in the same 2007 period, increasing $16.0 \%$. However, the EBITDA margin for the quarter decreased from $26.3 \%$ in 4 Q 07 to $23.1 \%$ in 4Q08.

Accumulated EBIDTA to December 2008 amounted to 391.4 million pesos, 45.1\% above the 269.8 million pesos of 2007. The accumulated EBITDA margin in 2008 was of $31.7 \%$ and is 500 b.p. above the margin registered in the same year-ago period.

## Comprehensive Financing Income

In the period of October to December of 2008, the comprehensive financing income was positive at 80.4 million pesos, which favorable compares with a loss registered in the same year-ago period resulting mainly from the Indeval income of 16.1 million pesos for 4Q08 and higher interest income, due to a larger cash balance. Such resources are invested under a conservative scheme, thus, are invested in short term instruments and mainly in fixed income instruments issued by the Mexican government.

In accumulated terms, the comprehensive financing income for the year amounted to 222.1 million pesos, $1,032.9 \%$ above the 19.6 million pesos registered in the same 2007 period. This due also to the Indeval operation, which for the full year amounts to 92.7 million pesos and to the increased cash balance.

## Effects Derived from the Application of the C15 Bulletin

Following the Mexican Accounting Principles regarding the valuation of goodwill and intangible assets, and considering the changes that we have seen in the economic
and financial environment, both domestic and international; we conducted impairment tests on the intangible assets associated with our 2008 acquisitions. As a result of these, we recorded a one-time, non-cash, non-tax impairment charge of 528 million pesos. It is worth mentioning that this does not have any impact on our cash flow or on our operations or on our operating margins.

## Taxes

During the fourth quarter of the year, taxes amounted to 27.5 million pesos, which is $105.2 \%$ above those registered in 4Q07. However, the effective tax rate in 4Q08, $17.9 \%$ showed a decrease of 450 b.p. when compared to the $22.4 \%$ tax rate in $4 Q 07$.

Taxes for the year added to 107.6 million pesos, and were $84.3 \%$ above those of 2007 at 58.4 million pesos. However, the effective tax rate for 2008 was $18.9 \%$ which compares favorably to an effective tax rate of 23.7\% during 2007.

## Net Income

During 4 Q 08 the BMV registered a net income of 120.5 million pesos, which favorably compares to a net income in 2007 of 42.0 million pesos, a $187.2 \%$ increase. This figure excludes the effect derived from intangible asset impairment related to 2008's acquisitions, which affected net income by 528 million pesos. When considering the effect related to the impairment of intangible assets and a net loss of 407.5 million pesos for the quarter was registered.

In accumulated terms, 2008's net income amount to 421.0 million pesos, 174.1\% above 2007. When considering the effect related to the impairment of intangible assets and a net loss of 107.1 million pesos for the year was registered.

Indeval's net income for the full year 2008 was 97.5 million pesos, $19 \%$ higher than the 81.9 million pesos registered in 2007.

## Balance

As a result of the corporate restructuring, we see relevant changes in the main balance sheet statement when compared to the same previous period.
