COVID-19 Update

Rotoplas provides access to over 1 million litres of water during the pandemic

Grupo Rotoplas S.A.B. de C.V. (BMV: AGUA) ("Rotoplas" or "the Company"), the leading water solutions company in the Americas, communicates some of the measures it has taken as of May to support its stakeholders during the COVID-19 pandemic.

Rotoplas has aligned its business strategy in order to maximize its contribution to the UN's Sustainable Development Goals. Its contribution during the health emergency has therefore been designed in accordance with SDG 6: Clean Water and Sanitation, and with SDG 9: Industry, Innovation and Infrastructure.

④ Contribution to SGD 6 – Clean Water and Sanitation

In order to help tackle the pandemic, the Company has identified purification and access to drinking water needs in the various regions in which it operates, seeking both collective and individual ways to address the issue. To that end, Rotoplas has donated products and services to purify over **3 million litres of water annually** in hospitals, has provided the capacity to store more than **1 million litres** in vulnerable communities, and has supplied over **1,000 hand washing stations** that have been situated at strategic points, according to the population size of different countries in Latin America.

Purification and sanitation:

Donation	Capacity ¹
Bebbia services in hospitals for one year	2,701,000 L
Water purifiers for hospitals	480,000 L

Storage:

Donation	Capacity ²
450 L Water Tanks	12,150 L
600 L Water Tanks	71,000 L
750 L Water Tanks	148,500 L
1,100 L Water Tanks	73,700 L
5,000 L Cisterns	459,000 L
Other Capacities	291,550 L

¹Annual purification capacity.

²Maximum water storage volume.

³Rotoplas, in collaboration with NGOs and other organizations, donated the storage components and accessories for the hand washing stations.

Integrated solutions:

Donation	Capacity ²
1,139 hand washing stations ³	528,150 L
IoT sensors for level measurement	-

In the following video –Rotoplas’ support during the COVID-19 pandemic- you will find a summary of the aforementioned efforts (only available in Spanish):

④ Contribution to SDG 9 - industry, innovation and infrastructure.

Hand in hand with its strategic allies, Rotoplas has worked on the release of the prototype and user manuals for handwashing stations, turning them into a **collaborative innovation** project in which any interested person can access these documents and thus promote hygiene in public spaces.

In addition, for the second consecutive year, the Company has been recognized as one of the top 3 ESG issuers in Latin America within the small cap category - capital goods category by Institutional Investors.

Rotoplas' operating status and financial position have remained unchanged since the last statement released on May 21st. The Company continues to operate in accordance with the regulation established by local authorities in each country and in line with the World Health Organization's health and safety protocols.
