Rotoplas consolidates for the fourth consecutive year in the DJSI MILA Pacific Alliance

Grupo Rotoplas, S.A.B. de C.V. (BMV: AGUA*) ("Rotoplas" or "The Company"), the leading provider of water-solutions in the Americas, announces that for the fourth consecutive year and since the creation of the index, Rotoplas is ratified as part of the DJSI MILA Pacific Alliance.

The index is made up of the 62 leading sustainability companies in Chile, Colombia, Mexico and Peru, and it measures environmental, social and corporate governance performance. Rotoplas is among the 21 Mexican companies considered for the sample. The new sample is effective as of November 23rd, 2020.

The consolidation within the index derives from the understanding and commitment with the value generation for all its stakeholders, the environment and the current situation. From these subjects, four main focuses emerge on which actions are prioritized: Corporate Sustainability Governance, Collaborative innovation with purpose, Driving economic and social development, and Safeguarding water as a resource for the future.

"We are proud to be part of this index which reassures us that the strategy we have developed leads us through the path of a conscious capitalism that creates sustainable and economic value with the purpose of **people to have more and better water.**" said Carlos Rojas Aboumrad, CEO of Grupo Rotoplas.
