

Annual Integrated Report 2020

At Rotoplas we create 360° value

2020 was a year of great challenges, but it was also an important catalyst in the transformation process, consolidating the strategy and keeping people at the core of all our decisions.

For people to have more and better water is not only our purpose, but it is also a solid business vision that allows us to continue generating value in all dimensions and for all our stakeholders.

We invite you to learn more about our results through this Annual Report, which, as part of our commitment to transparency and to our investors, now also adopts SASB (Sustainability Accounting Standards Board) standards, in addition to other frameworks such as GRI (Global Reporting Initiative) and TCFD (Task Force on Climate-related Financial Disclosures).
