Qualitas reports fourth quarter 2023 results

Mexico City, **January 25th 2024** – Qualitas Controladora, S.A.B. de C.V. ("Qualitas", "Q", or "the company") (BMV: Q*), announces its unaudited financial results for the fourth quarter and full year 2023.

Figures in this document are stated in millions of Mexican pesos except when otherwise indicated and may vary due to rounding and / or consolidation.

Highlights

- Written premiums continued to experience an accelerated growth, increasing +32.0% vs 4Q22, closing 2023 with an increase of 27.8% or \$11,690 million vs prior year. This represents the highest annual increase in premiums amount in the company's history.
- Top line growth was mainly driven by a weighted average increase of 24% in tariffs when compared to their last update in 2022, in addition to the volume growth, which is linked to the recovery in sales of new vehicles in Mexico, being +24.4% up vs 2022 & +3.3% vs 2019.
- We achieved to add 527 thousand insured units' growth during the year, reaching a new annual record high of 5.34 million by 2023-year end.
- Earned premiums had a 30.8% growth vs 4Q22; 2023 full year earned premiums closed at \$49,591 million, an increase of 24.1% vs 2022. In line with its historical behavior, we constituted reserves for \$2,372 million during the quarter, closing at \$4,005 million for the year, and representing \$2,517 million more than full year 2022.
- The loss ratio for the quarter stood at 70.7% and 70.9% in cumulative terms, reflecting factors influencing the industry such as inflation, frequency, robberies, as well as the impact from hurricane Otis. Despite the above and the seasonality of the business, the quarterly ratio reflects a gradual improvement vs 2Q23 and 3Q23 of 120 bps and 90 bps respectively.
- The quarterly combined ratio closed at 94.3% and at 96.1% for the year. As for our operation in Mexico, annual loss and combined ratio stood at 67.5% and 91.1%, respectively, demonstrating an evident stabilization point. According to latest AMIS figures, as of the first nine months of the year, Qualitas Mexico combined ratio was 7.6 pp below the rest of the industry average, being one of the only two companies from the top 5 reporting a profitable underwriting result.
- Quarterly and annual comprehensive financial income closed at \$1,097 million and \$3,961 million, which represents a ROI of 10.0% and 9.4%, respectively. As of 2023, the investment portfolio stood at \$39,689 million; 89% allocated in fixed income with a 1.5 year duration.
- Quarterly net result closed at \$1,126 million, +85.5% vs 4Q22, and at \$3,791 million in cumulative terms, +71.6% vs 2022. Quarterly and cumulative net margin was 6.9% and 7.1% respectively. EPS for the quarter was \$9.5 and 12-month ROE 12 stood at 18.4%.

Foreign subsidiaries' written premium may include differences given exchange rate effect.

By December-end, quarterly written premium stood at \$16,402 million, +32% vs same period last year. During 2023, premiums stood at \$53,726 million, +27.8% comparing to 2022 year-end. In line with observed behavior throughout the year, around 50% of top line growth is driven by tariffs increases of 24% in a compounded average throughout the year vs. 2022 latest update; the 50% balance is related to the increase in insured units.

The solid performance in written premiums was led by the traditional segment, with a +31.9% increase vs 4Q22 and +32.7% vs 2022. Within this segment, our individual business stands out with an increase of +32.5% above same quarter of last year and +36.1% in cumulative terms.

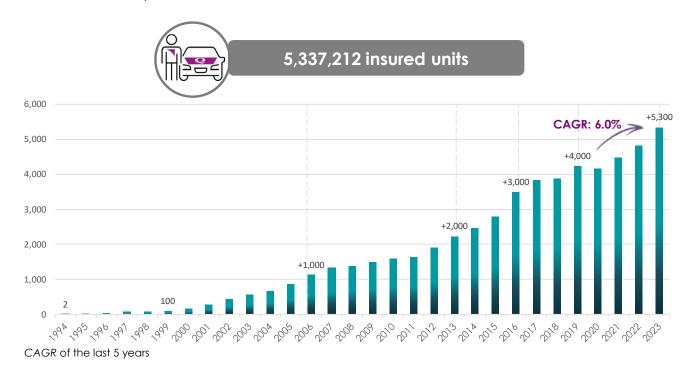

In addition to the traditional segment, it also stands out the underwriting through the financial institutions, which had a strong performance correlated to new vehicles sales, experiencing a quarterly and cumulative growth of 32.8% and 26.3% respectively.

Regarding our international subsidiaries' underwriting, these reported a quarterly growth of 27.9% vs 4Q22 and full year decrease of -1.2%. The above reflects the slowdown strategy in the US and the $\sim 13\%$ appreciation of the Mexican peso along the year.

In local currency, quarterly underwriting from international subsidiaries increased +46.8%, and +16.3% in cumulative terms. Considering only our LATAM subsidiaries, its quarterly and cumulative written premiums growth was +33.5% and +41.7%, respectively.

Insured units

We closed the year with 5.34 million insured units, maintaining a solid compounded annual growth of 6.0% during the past 5 years. This represents an increase of +527 thousand units or +11.0% when compared to 2022-end.

Regarding new cars sales, they widely exceeded AMDA's expectations at the beginning of the year, finally closing the year with a growth of +24.4% and 3.3% vs 2019. On the other hand, heavy equipment sales stood out with a +32.6% increase vs 2022 and +31.2% above 2019, outperforming the absolute sales of these kind of units for the first time after the pandemic.

Insured units are distributed as follows:

| | 4Q23 | 4Q22 | Δ% | 3Q23 | Δ% |
|----------------|-------|-------|---------|-------|---------|
| Mexico | 5,102 | 4,607 | 10.7% | 5,132 | (0.6%) |

| Costa Rica | 118 | 100 | 18.0% | 112 | 4.7% |
| Estados Unidos | 35 | 18 | 94.4% | 29 | 19.1% |
| Peru | 51 | 58 | (12.1%) | 63 | (19.3%) |
| Insured units | 5,337 | 4,810 | 11.0% | 5,369 | (0.6%) |

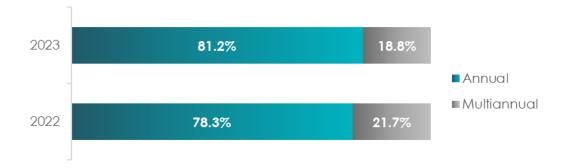

All percentage changes are compared to 4Q23, in thousands of units.

Earned premiums

During the fourth quarter, earned premiums closed at \$14,030 million, which represents a 30.8% increase vs 4Q22. On a year-to-date basis, earned premiums stood at \$49,591 million, a 24.1% increase vs same period of last year.

Growth is explained by the solid underwriting performance, the gradual improvement in our claims experience, our portfolio mix, and thus, the actuarial reserves constitution.

By December-end, 81.2% of the portfolio underwriting was constituted by annual policies and 18.8% by multiannual policies.

Acquisition cost

The acquisition cost closed the quarter at \$3,507 million and at \$11,936 million in cumulative terms, with an acquisition ratio of 21.4% and 22.3% respectively. Ratio stands within the historical range and reflects an accelerated growth in the traditional segment, as well as a recovery in the underwriting through financial institutions, which is correlated to new car sales performance in Mexico.

Important to highlight that there has been no change in the commissions paid neither to agents nor financial institutions, and that these are related to volume; for the agents' commissions are also linked to the quality and profitability of their portfolios.

Claims cost

Loss costs continued to be pressured by three main factors: 1) spare parts and manufacture of the automobile industry inflation, 2) frequency and severity of accidents and 3) changes in thefts and recovery trends.

Headline inflation in Mexico has been stabilizing in recent months, closing the year at 4.7% whereas core inflation stood at 5.1%. In this regard, 12-month inflation for spare parts stood at 3.9%; while this demonstrates a gradual improvement, it is still a pressure on our costs. Regarding our accident's frequency, it stood at 7.6% in the quarter, +10 bps above 4Q22, closing the year with a claim's frequency of 28.4%, +50 bp above 2022. Likewise, severity and the composition of our attended claims has had an impact in our average claims' cost, increasing 9.3% vs 2022 year-end.

Lastly, theft of insured vehicles in Mexico maintains an upwards trend, increasing +3.5% for the industry and +9.7% for Qualitas, when compared to 2022. Thefts represented 15% of the company's total claims' costs which compares to 13% during same period of last year. Regarding the recovery of stolen units, Qualitas recovered 43.2% of units, 3.9 pp higher than the rest of the industry average.

It is worth noting that, within 4Q23 claims costs, impact of hurricane Otis, of around \$198 million, is fully reflected while being partially offset by our catastrophic reinsurance coverage.

All the above resulted in a quarterly claims cost and ratio of \$9,917 million and 70.7%, respectively. On a year-to-date basis, claims cost stood a \$35,174 million, with a 70.9% ratio. Even though this ratio is not yet within our sustainable technical range, the implemented initiatives we have been implementing throughout the year have mitigated the negative impact, observing a gradual stabilization towards 2023-end.

Operating expenses

Operating expenses for the quarter stood at \$374 million, reaching an operating ratio of 2.3%. Full year operating expenses ended at \$1,556 million with a 2.9% operating ratio.

Despite the increase in operating expenses due to the +527 thousand insured units' growth, coupled with the objective of maintaining our quality standards, we have managed to keep the operating ratio within the objective range and under the rest of the industry average.

Likewise, this ratio reflects the benefit from the income generated by our non-insurance subsidiaries from sales to third parties. Important to mention that operating expenses include the employees profit sharing, which is directly related to the earnings of the company; if we were to exclude this item impact, the quarterly and annual operating ratio would stand at 1.5% and 2.1% respectively.

Underwriting result

The company had a quarterly underwriting profit of \$233 million and of \$926 million in cumulative terms, representing an operating margin of 1.7% and 1.9% respectively. We posted a 94.3% combined ratio at the end of 4Q23 and 96.1% for the full year 2023.

According to the latest AMIS available statistics, by September-end, the auto insurance industry in Mexico reported a combined ratio, excluding Qualitas, of 101.8%; we stand out in terms of profitability with a 95.3% combined ratio; 6.5 pp below the rest of the industry average.

Source: Combined ratio; AMIS as of September 2023

Comprehensive financial income

During 4Q23, reference rate in Mexico remained at 11.25%, compared to 10.5% at the end of 2022. The e 28-day CETES average for the quarter and full year was 11.1%

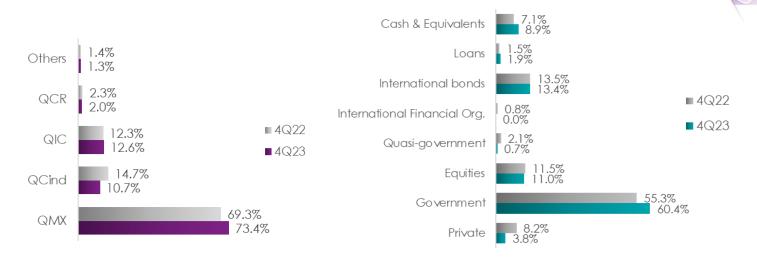

By December-end, 89% of the portfolio is allocated in fixed income and the remaining 11% in equities; the duration of our investment portfolio stood at 1.5 years. Important to mention that \sim 15% of our total portfolio is geographically allocated, to comply with the regulatory capital requirements of our international subsidiaries.

The equity proportion of our portfolio continues to shift to a passive ETF based strategy; we have sold some specific individual equity positions, looking for a less volatile portfolio composition and mainly indexed.

Considering the above, quarterly financial income closed at \$1,097 million and at \$3,961 million YTD, which implies an ROI of 10.0% and 9.4% respectively; an increase of 230 pp and 630 pp in comparison to the same period ROI in 2022. Our portfolio continues to be well-positioned to benefit from the current rates environment for at least the next 18 months.

Net result

All in all, the company reported a quarterly net profit of \$1,126 million and \$3,791 in cumulative terms. This represents an increase of +85.5% or \$519 million more than 4Q22 and +71.6% or \$1,582 million in addition to 2022.

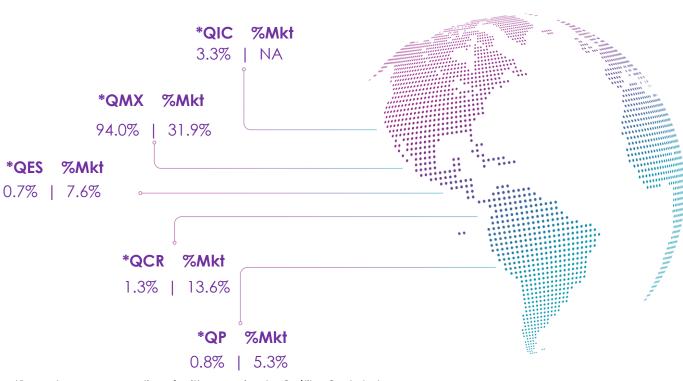

We reported a quarterly net margin of 6.9%, equivalent to a growth of +200 bp vs 4Q22; net margin for the full year closed at 7.1%, +180 bp vs 2022.

Qualitas posted an 18.4% ROE by year-end, getting close to the mid- and long-term objective, which demonstrates profits growth, as well as our capital strength. ROE is comprised by an operating ROE of 3.5% and a financial ROE of 14.9%.

Our business model allows us to keep on creating value and demonstrates the solidness of the company, despite the headwinds of the current environment.

Subsidiaries as of 4Q23

International subsidiaries represented ~6% of company's total written premiums:

^{*}Percentage as a proportion of written premium by Quálitas Controladora

Altogether, international and vertical subsidiaries reported written premiums and sales of \$1,222 million during 4Q23, a 39.1% quarterly increase. In cumulative terms, they posted underwriting and sales of \$4,048 million, a 5.8% growth. Such performance considers the exchange rate impact due to the Mexican peso appreciation observed during the year and the intentional slowdown in our US subsidiary. In local currency, quarterly and annual underwriting for the international subsidiaries increased +46.8% and +16.3% respectively.

Or Flekk subsidiary continues with its third-party sales expansion growing its sales for this segment by 29.6% during 2023. In the table below, our subsidiaries performance:

| Total | 1,222 | 878 | 39.2% | 4,048 | 3,826 | 5.8% |

Sales in vertical subsidiaries exclude inter company operations. Includes Autos y Salvamentos, O&T and Activos Jal

Technical reserves

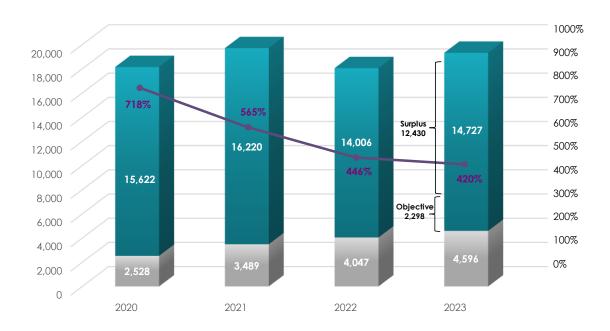

During the quarter, the net increase of unearned premium reserves was \$2,372 million, +\$792 million more than 4Q22. On a year-to-date basis we have constituted reserves for \$4,005 million, +\$2,517 million above 2022 constitution.

The reserves composition is directly linked to the solid top line growth, the portfolio mix, as well as the claims evolution throughout the year.

Solvency

The regulatory capital requirement stood at \$4,596 million by year end, with a \$14,727 million solvency margin, equivalent to a solvency ratio of 420%.

Our capital allocation strategy will continue to focus on: 1) strengthening our leadership in Mexico, 2) accelerating the growth of our subsidiaries, and 3) expanding our service to new business lines within the insurance ecosystem.
