Advances in Programmatic M&A Strategy: Strengthening Presence in Water Treatment and Recycling in Mexico

Grupo Rotoplas S.A.B. de C.V. ("Rotoplas", "the Company" or "the Group") (BMV: AGUA*), the leading provider of water-solutions in the Americas, announces to the investing public the closing of an additive transaction that underpins the growth of the water treatment and recycling business in Mexico.

Rotoplas Servicios de Agua (RSA) acquired an operating treatment plant in Puebla, designed to serve both the hotel and industrial sectors. This facility equals the combined capacity of 29 equivalent plants.

"This transaction strengthens *RSA* growth by integrating into our portfolio a treatment plant in sectors of interest in the Mexican market. Additionally, it expands our scale and presence, adding clear synergies for value creation," mentioned Gonzalo Uribe, Vice President of the business units in Mexico and Central America.

Through the Programmatic M&A Strategy, Rotoplas seeks to carry out small but frequent transactions to gradually increase market presence, penetrate new sectors, and create synergies that contribute to the overall strategy of the Group.
