The analysis was prepared using consolidated figures and in accordance with Financial and Reporting Standards accepted in Mexico which since 2022 and onwards converge with IFRS-9.

Variations are calculated for 4Q23 versus the same period of 2022 and 3Q23, unless otherwise stated. The reader must also consider FX fluctuations in our Peruvian subsidiary, Compartamos Financiera, for the comparable periods.

**Interest income** in 4Q23 was **Ps. 8,930** million, a **19.5%** increase compared to 4Q22, and a **7.9%** increase compared to Ps. 8,278 million in 3Q23.

Banco Compartamos represented the majority of GENTERA's portfolio and interest income, comprising 63.4% and 73.1%, respectively. The second subsidiary with the highest contribution to this line was Compartamos Financiera. It is also noteworthy that ConCrédito contributed 6.4% to GENTERA's portfolio and 7.9% to its interest income.

**Full year interest income** stood at Ps. 32,509 million, representing a 15.9% growth compared to year 2022.

The **yield** for GENTERA's portfolio (considering Banco Compartamos, Compartamos Peru, and ConCrédito) during 4Q23 stood at **56.0%**.

#### **Interest expense**

**GENTERA's** interest expense stood at **Ps. 1,706** million, a **52.0%** increase compared to **4Q22**, and a 16.3% increase compared to 3Q23. It is important to bear in mind that since 2022 and onwards the expenses associated to credit origination and the implicit interest related to leasing agreements, according to Financial Reporting Standards in Mexico and IFRS, are now reflected in the interest expense line, which for this 4Q23 represented Ps. 492 million (~28.8%) of the Ps. 1,706 million in interest expense reached in 4Q23. **Interest expense related to financing expenses represented Ps. 1,214 million in 4Q23, a 39.9% growth on a year-on-year comparison.** 

In this table, employees in Banco Compartamos include employees from ATERNA and YASTAS.

<sup>\*</sup>Portfolio and Net Income are expressed in millions of Mexican Pesos.

<sup>\*\* 69</sup> Branches are inside a Service Office (same location).

#### **Funding Cost**

| Funding Cost                  | 4Q23  | 4Q22 | 3Q23  |
|-------------------------------|-------|------|-------|
| Compartamos Banco (México)    | 10.7% | 8.8% | 10.3% |
| Compartamos Financiera (Perú) | 7.6%  | 7.1% | 7.8%  |

- The interest expenses of Banco Compartamos in Mexico stood at Ps. 1,194 million in 4Q23 a 65.1% increase compared to Ps. 723 million in 4Q22 and 19.8% larger compared to Ps. 997 million in 3Q23 (this figure includes credit origination costs and the implicit interest related to leasing agreements, according to Financial Reporting Standards in Mexico and IFRS, which for this fourth quarter amounted Ps. 416 million). The interest expenses associated with financing grew 50.8% in comparison to the previous year.
  - At the end of the quarter, **14.1%** of Banco Compartamos liabilities (considering interbank liabilities and long-term debt issuances) were subscribed at **fixed rate.**
- **Compartamos Financiera in Peru** increased its Interest Expenses line by **31.9%** to Ps. 395.4 million versus 4Q22, when it stood at Ps. 299.8 million. If we exclude the effect of credit origination costs and the implicit interest related to leasing agreements, interest expenses related to financing expenses grew 27.0%, from Ps. 261.0 million in 4Q22 to Ps. 331.6 million in 4Q23.

#### **Net Interest Margin**

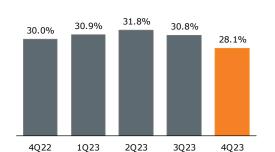

**GENTERA's Net Interest Margin (NIM)** for the fourth quarter of 2023 stood at **39.6%**, which is slightly below the 40.4% reached in 4Q22 **and at the same level to that reached in 3Q23**. Margins are moving in a stable manner **around 40%**. The driver of this movement is attributed to a higher interest income in the period due to the strong loan portfolio performance of Banco Compartamos, Compartamos Financiera, and ConCrédito; and due to the growth in the Interest Expense Line (*Considering Financing Expenses and Expenses linked to credit origination and the implicit interest related to leasing agreements).* It is important to bear in mind the impact that the size of productive assets (Cash and Loan Portfolio) have at the time this ratio is computed (Considering average numbers vs End of period numbers), and the effect that the evolution of each credit methodology had in the interest income generation and thus in margins.

# **Provisions for loan losses**

**Provisions for loan losses** reached **Ps. 2,096 million** during the quarter. This figure increased by Ps. 448 million, or 27.2%, when compared to 4Q22, and a 37.5% increase compared to 3Q23. In its annual comparison the movements are explained mainly by higher levels of provisions in Banco Compartamos, due to the 33.1% solid portfolio growth experienced in this subsidiary during the period, and due to the impacts generated in October by hurricane OTIS that affected our clients that live in Guerrero. It is important to highlight, that during 4Q23 we booked specific provisions amounting ~Ps. 194 million related to this event.

**Cost of Risk** for 4Q23 amounted to **13.3%**. **Cost of risk for full year 2023 stood at 11.1%**, which was basically in line with the level expected for the year, considering the impacts originated by hurricane OTIS in Mexico.

#### NIM after provisions 1)

Net Interest margin after provisions / Average Yielding Assets

**NIM after provisions** (NII after provisions for losses / average yielding assets) **for 4Q23 stood at 28.1%,** compared to 30.0% in 4Q22 and 30.8% in 3Q23.

For full year 2023, NIM after provisions stood at 30.1% compared to 31.5% in year 2022.

# **NIM after provisions** for year 2023 stood at **30.1%**.

#### **Commissions and fee income**

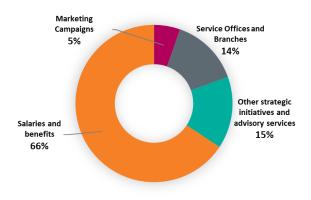

**The net effect between commissions charged and commissions paid** in 4Q23 totaled **Ps. 829 million**, representing a 42.4% growth compared to 4Q22. **For full year 2023**, the net effect stood at Ps. 2,875 million, representing a 54.3% increase compared to year 2022.

These dynamics are mainly explained by the solid results in the number of insurance policies sold in the different subsidiaries.

- Commissions and Fee income are mainly explained by insurance fees, penalty fees charged to clients with late payments, and different fees generated at Compartamos Financiera, ConCrédito, Aterna and Yastas, among others\*. (\*In year 2023 the insurance business had additional non recurrent income which may or may not be present in year 2024).
- Commissions and fee expenses can be attributed primarily to the fees paid by GENTERA's subsidiaries to third-party banks or channels for the use of their networks in disbursing credits or collecting payments. Additionally, commissions paid to Yastas contribute to these expenses. Banco Compartamos clients enjoy the convenience of accessing more than 47 thousand diverse channels through which they can carry out their transactions.

**Other Operating Income/Expenses** during 4Q23 represented an income of **Ps. 198 million**. This item reflected income from CrediTienda (ConCrédito's online platform used to sell different products), as well as non-recurring income or expenses registered during the quarter.

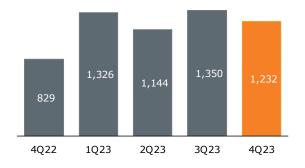

# **Operating expenses**

Operating expenses reached Ps. 4,513 million, a 16.8% increase versus Ps. 3,865 million in 4Q22, and 3.6% growth compared to 3Q23. For full year 2023 operating expenses reached Ps. 17,027 million, representing a 14.0% growth compared to the previous year. The double digit increase in expenses is mainly explained due to a larger number of loan officers, who, as you could see in 2023 results, are attracting new customers, growing the portfolio in a more robust way and at the same time maintaining a healthy asset quality.

**Participation in Net Income from Non-Consolidated Subsidiaries** stood at Ps. 0 million during the quarter, compared to Ps. 2 million in losses in 4Q22. This item reflects GENTERA's **minority contribution** in the Companies in which it has been investing.

Gentera reached its largest net income in its history, at Ps. 5,052 million.

**Other comprehensive income** stood at negative **Ps. 189 million** at the end of 4Q23. This line includes revenues, expenses, gains, and losses that have yet to be realized. For this 4Q23 are mainly attributable to FX variations in the investment that GENTERA has in Compartamos Financiera (Peru).

**Comprehensive Result** stood at **Ps. 1,043 million in 4Q23,** where Controlling interest accounted for Ps. 945 million and non-Controlling interest represented Ps. 98 million.

# Statement of Financial Position.

#### Cash and investments in financial instruments.

**Cash and investments** stood at **Ps. 11,394 million** at the end of 4Q23, a 5.5% contraction compared to 4Q22, and a 13.2% reduction compared to 3Q23.

At the end of 4Q23, 48.9% of the cash position corresponded to Banco Compartamos with Ps. 5,573 million held in highly liquid assets, while 35.2%, equivalent to Ps. 4,012 million, corresponded to Compartamos Financiera, and 14.1%, equivalent to Ps. 1,610 million, corresponded to ConCrédito; the remaining corresponded to GENTERA's other subsidiaries.

# Loan Portfolio (Ps. Millions) & NPL

**Loan Portfolio** reached **Ps. 65,167 million** in 4Q23, a **21.4% growth** compared to the figure reported in 4Q22, explained by the solid dynamics seen in GENTERA's financial subsidiaries which grew in a solid manner in its annual comparison.

### Credit Quality (Loan Portfolio with credit risk stage 3/Loan Portfolio)

Consolidated non-performing loans (Loan Portfolio with credit risk stage 3), considering the three financial subsidiaries, reached 3.44% in 4Q23, a similar level compared to 3.46% recorded in 4Q22 and an increase compared to 3.29% registered in 3Q23. The NPL levels recorded in 4Q23 continued reflecting stable ratios and even though the level is higher compared to 3Q23, this was in line with the expectations for this year.

Banco Compartamos' policy is to write-off loans at 180 days behind schedule. As we have signaled before, GENTERA acquired vast knowledge and experience in originating and monitoring credits that were granted during the health crisis originated by COVID-19, and at the same time with a larger use of all the data that we have generated. This experience has contributed to a better asset quality control of its current and future loan portfolio and it has helped to have a more efficient operation today and be able to modernize the operation in the future.
