

Important notice

This document has been prepared by Macquarie México Real Estate Management, S.A. de C.V. ("MMREM"), as manager, acting in the name and on behalf of CIBanco, S.A., Institución de Banca Múltiple ("CIBanco"), as trustee, of FIBRA Macquarie México ("FIBRA Macquarie").

As used herein, the name "Macquarie" or "Macquarie Group" refers to Macquarie Group Limited and its worldwide subsidiaries, affiliates and the funds that they manage. Unless otherwise noted, references to "we" "us", "our" and similar expressions are to MMREM, as manager, acting in the name and on behalf of CIBanco, as trustee, of FIBRA Macquarie.

This document does not constitute an offer to sell or a solicitation of an offer to buy any securities in the United States, and securities may not be offered or sold in the United States absent registration or an exemption from registration under the U.S. Securities Act of 1933, as amended. This document is an outline of matters for discussion only and no representations or warranties are given or implied. This document does not contain all the information necessary to fully evaluate any transaction or investment, and you should not rely on the contents of this document. Any investment decision should be made based solely upon appropriate due diligence and, if applicable, upon receipt and careful review of any offering memorandum or prospectus.

This document includes forward-looking statements that represent our opinions, expectations, beliefs, intentions, estimates or strategies regarding the future, which may not be realized. These statements may be identified by the use of words like "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "will," "should," "seek," and similar expressions. The forward-looking statements reflect our views and assumptions with respect to future events as of the date of this document and are subject to risks and uncertainties.

Actual and future results and trends could differ materially from those described by such statements due to various factors, including those beyond our ability to control or predict. Given these uncertainties, you should not place undue reliance on the forward-looking statements. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

No risk control mitigant is failsafe. Notwithstanding the mitigants described herein, losses may occur as a result of identified or unidentified risks. Past performance is no indication of future performance.

Certain information in this document identified by footnotes has been obtained from sources that we consider to be reliable and is based on present circumstances, market conditions and beliefs. We have not independently verified this information and cannot assure you that it is accurate or complete. The information in this document is presented as of its date. It does not reflect any facts, events or circumstances that may have arisen after that date. We do not undertake any obligation to update this document or correct any inaccuracies or omissions in it. Any financial projections have been prepared and set out for illustrative purposes only and do not in any manner constitute a forecast. They may be affected by future changes in economic and other circumstances and you should not place undo reliance on any such projections.

Recipients of this document should neither treat nor rely on the contents of this document as advice relating to legal, taxation or investment matters and are advised to consult their own professional advisers.

No member of the Macquarie Group accepts any liability whatsoever for a direct, indirect, consequential or other loss arising from any use of this document and/or further communication in relation to this document.

Any discussion in this document of past or proposed investment opportunities should not be relied upon as any indication of future deal flow.

The growth opportunities described herein are not necessarily reflective of all potential investments, which may have significantly different prospects and other terms and conditions. No assurance can be given that any such growth opportunities will be pursued by FIBRA Macquarie.

Qualitative statements regarding political, regulatory, market and economic environments and opportunities are based on our opinion, belief and judgment. Such statements do not reflect or constitute legal advice or conclusions. Investment highlights reflect our subjective judgment of the primary features that may make investment in the relevant sector attractive. They do not represent an exclusive list of features, and are inherently based on our opinion and belief based on its own analysis of selected market and economic data and its experience in Mexico.

None of the entities noted in this document is an authorized deposit-taking institution for the purposes of Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of Macquarie Bank Limited ABN 46 008 583 542 ("MBL"). MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities.

Highlights

Strategic Focus

- FIBRA Macquarie focuses on the acquisition, development, ownership and management of industrial and retail real estate properties in Mexico.
- Industrial properties administered by our internal property administration platform focused on providing high-quality customer service to current tenants and attracting new tenants.
- Retail properties that provide a range of basic services and are located in high density urban areas, primarily in the Mexico City Metropolitan Area.

Portfolio Summary

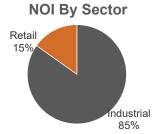

Туре	# of properties	# of tenants ¹	Occupancy	GLA ('000s sqm)	GLA ('000s sqft)

Portfolio Breakdown¹⁰

MXN 18% USD 82%

^{1.} The number of tenants is calculated on a per property basis 2. Includes 100% of the property information with respect to each of the nine retail properties held through a 50/50 joint venture. 3. FX: September 30, 2020: Ps. 22.4573, certificate price Ps. 27.16, Outstanding CBFIs: 761,623,497. 4. Regulatory LTV calculated as (total debt + interest payable) / total assets, Net real estate LTV calculated as proportionally combined (debt + tenant security deposits - cash - deferred sales proceeds) / (fair market valued property values + land reserves). 5. FX: Average rate – LTM: 22.1109 6. Calculated as NOI LTM / Implied Operating RE Value; Implied Operating RE Value is calculated as market captailization + proportionately combined (debt – cash – land reserves), at the end of the quarter 7. Calculated using weighted average outstanding CBFIs for the respective period 8. Calculated using EOP CBFI Price, midpoint the current Fy20 AFFO quidance and FY20 distribution guidance. 9. ADTV uses the average FX rate for the 90 trading days up to September 30, 2020 of Ps. 22.1084 10. Calculated using NOI LTM as of September 30, 2020 and LTM avg FX rate of Ps. 22.1109

3Q20 Executive Summary

Reaffirms FY20 Distribution per certificate guidance of Ps. 1.90; Sequential reduction of 35.7% in closing net trade receivables to Ps. 73.3 million; Average industrial rental rates increased 2.3%; Momentum continuing in industrial development program

Summary

Financial Performance

- Quarterly AFFO per certificate decreased 8.1% YoY, driven by a 17.5% decrease in same store NOI due to Retail
 portfolio rent discounts (COVID-19 relief program), higher maintenance expense and provisioning for doubtful
 debts, as well as increased net financing costs driven by the US\$90m revolver facility repaid during the quarter,
 partially offset by 11.8% positive impact of Peso depreciation
- AFFO per certificate decreased 3.8% QoQ, mainly driven by 4.4% Peso appreciation and increased normalized maintenance capex, LC & TIs, partially offset by decreased financing costs & corporate G&A expenses
- FIBRAMQ experienced a sequential reduction of 35.7% in its net trade receivables, closing at Ps.73.3 million
- NOI margin reduced to 86.8% (203bps decrease YoY & 68bps decrease QoQ) driven by the aforementioned rent discounts and doubtful debt provisioning
- Declared 3Q20 Distribution: Ps. 0.4750 per cert., up 4.4% YoY; 3Q20 AFFO payout ratio of 77.6%

Operational Performance

- As expected, consolidated occupancy of 93.7% decreased 184bps YoY, QoQ industrial occupancy was down 151bps to 94.0%. Retail occupancy dropped 158bps YoY to 92.1%, down 56bps QoQ
- Industrial rental rates grew 2.3% YoY, driven by contract increases. Retail rental rates reduced by 5.2% YoY, driven by the 1Q20 early lease termination in a Mexico City property. Retail rental rates were up 0.6% YoY after adjusting for this early termination.

Strategic Initiatives

- Development:
 - Construction substantially completed for new Ciudad Juárez industrial project (217k sqft)
 - Industrial development program gaining momentum; investment made in a premium land parcel in the Mexico City Metropolitan Area to develop more than 700k sqft of industrial logistics GLA
- Revolver credit facility: With stable operating performance and stable banking markets, FIBRAMQ repaid US\$90m of its drawn RCF in July and August. At the end of 3Q20, FIBRAMQ had total liquidity reserves of US\$271.7m, comprised of US\$236.1m undrawn committed revolver credit facility and US\$35.6m cash at hand

^{1.} Includes 50% of the results from the properties held in a 50/50 joint venture 2. For further details of the calculation methodology see the definition section in the Appendix. 3. Based on weighted average certificates outstanding during the respective period, 3Q20: 761,623,497 and 3Q19: 768,600,120 4. Margins are calculated as a % of total revenues. 5. All amounts are expressed in Ps. millions or US\$ millions except for per certificate margins and metrics. 6. FX Average rates used: 3Q20: 22.1109; 3Q19: 19.4174.

Note: All figures are rounded to the nearest decimal point. Any arithmetic inconsistencies are due to rounding.

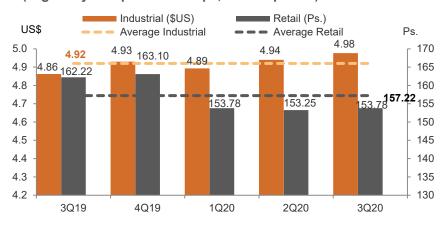

3Q20 Key Portfolio Metrics

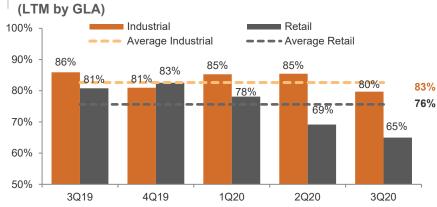

Rental Rates

(avg mthly rent per leased sgm, end of quarter)

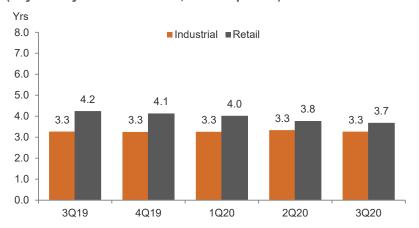

Retention Rate¹

Weighted Avg Lease Term

(in years by annualized rent, end of quarter)

^{1.} Retention rate is calculated on the basis of renewed leases as a percentage of total expiring leases. For the purpose of this calculation, leases are deemed to expire in the period corresponding to either when the renewal lease is signed or the customer moves out, as applicable.

^{1.} As at October 26, 2020

Industrial Portfolio

Industrial Portfolio: Operating Highlights

Industrial NOI up 12.6% YoY, benefiting from Peso depreciation. NOI margin of 90.7% impacted by higher repairs and maintenance and provisioning for doubtful debts on a YoY basis

3Q20 Activity

- Occupancy: EOP occupancy went down QoQ from 95.5% to 94%, and 190bps YoY; scheduled move outs (5 customers, 741k sqft GLA) during the quarter in line with FIBRAMQ management expectations. These move outs were with customers whose lease term had expired and did not renew due to reasons specific to their respective businesses.
- As a result of scheduled move outs, LTM retention dropped 575 bps YoY and 620 bps QoQ
- Leasing: new leasing activity was modest, with 4 new leases signed totaling 293k sqft of GLA, in Monterrey (107k sqft), Guadalajara (41k sqft) and Ciudad Juárez (145k sqft across two leases).
- Property expenses were steady QoQ (-0.8%), but higher by 38.4% on a YoY basis, which was partly driven by Peso depreciation of 13.8% on a YoY basis. In addition repairs and maintenance were higher (Ps. 28.3m, +72.5% YoY) after COVID-19 restrictions that limited maintenance work in 2Q20 were eased. Provisioning for doubtful debts (Ps. 15.7m, +185.5% YoY) also increased, reflecting a cautious level of provisioning.
- Weighted average rental rate increased 2.3% YoY to US\$ 4.98/sqm/m, driven by annual contract increases and positive lease renewal spreads
- Investment made in a premium land parcel in MCMA with potential GLA exceeding 700k sqft, no impact to NOI in 3Q20

FIBRA Macquarie's Industrial Presence in Mexico

Industrial Highlights

- 74.0% of annualized base rents are received from manufacturing clients that typically have high switching costs
- 93.3% of rents denominated in US\$
- Majority of leases are inflation-protected¹
- Weighted average lease term remaining of 3.3 years
- All industrial properties administered by our vertically-integrated, internal property management platform
- 3.6% of leases measured by annualized base rent are expected to expire in the remaining of 2020; in addition, leases representing 3.3% of annualized base rents are currently month-to-month and are in regularization

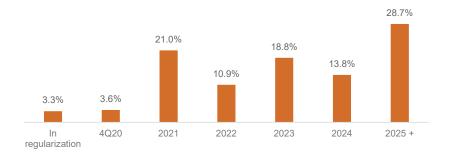

Presence in Key Industries

% of annualized base rent

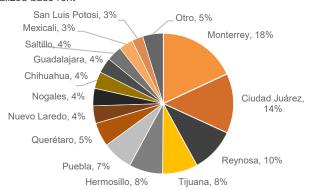

Lease Expiration Profile

% of annualized base rent

Presence in Key Markets

% of annualized base rent

Top 10 customers represent approximately 26.1% of annualized base rent with a weighted average lease term remaining of 4.9 years

^{1.} Contain contractual increases in rent at rates that are either fixed or tied to inflation (based on the U.S. Consumer Price Index if the lease rents are denominated in US Dollars or based on the Mexican Consumer Price Index if the lease rents are denominated in Pesos)

Industrial Leasing Summary and Regional Overview

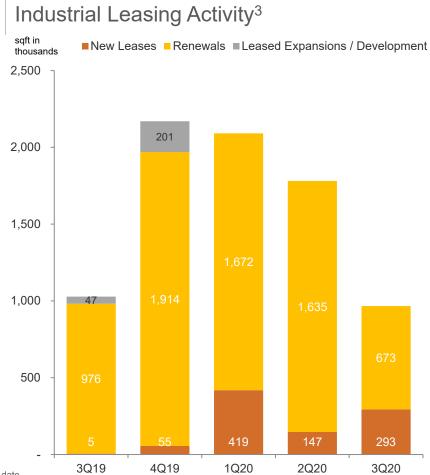

Continued strong renewal activity totaling 1.0m sqft; New leasing activity totaling 293k sqft

3Q20 Industrial Leasing Highlights

- · New and renewed leases totaling 1.0m sqft
- New leasing activity 293k sqft
- LTM retention decreased 575 bps QoQ to 79.7%
- Five move-outs totaling 741k sqft
- Through to 3Q20 YTD, 72.7% of scheduled FY20 expirations (5.3m sqft) have been dealt with, leaving a manageable 27.3% of FY20 scheduled expirations taking place in 4Q20

Regional Overview (as of September 30, 2020)

Retail Portfolio

Retail Portfolio: Operating Highlights

Retail portfolio benefited from easing of COVID-19 social distancing restrictions, with shopping center store re-openings largely complete, driving QoQ increase in foot traffic and rent income

3Q20 Activity

- Reflecting a gradually improving retail environment following the easing of COVID-19 social distancing measures, rent discounts to non-essential tenants in 3Q20 were Ps. 22.8m, 41.3% lower on a QoQ. This assisted to increase third quarter rental income to Ps. 105.1m, up 11.3% on a sequential basis.
- Cash collections also improved on a sequential basis, totaling Ps. 109.8m, up 10.4% QoQ, assisted by tenants settling prior period receivables of Ps. 9.5m
- Foot traffic in FIBRAMQ's shopping centers improved by approximately 40% compared to the peak of COVID-19 restrictions in April/May, but remains
 approximately 60% lower compared to pre-COVID-19 levels
- Occupancy decreased 56bp QoQ, with some small shop tenants not renewing or early terminating as a result of difficult trading conditions. Key activity during the
 quarter include:
 - 9 new leases signed (~820 sqm), reflecting a subdued leasing environment
 - Remodeling projects progressed. At Power Center Coacalco, remodeling works are substantially complete, whilst at City Shops Valle Dorado a remodeling project will commence in 4Q20, involving a major enhancement to the street facing facade and improved ground floor access for shoppers.

FIBRA Macquarie's Retail Presence in Mexico

Retail Highlights

- Defensive portfolio primarily located in the top retail market of Mexico City Metropolitan Area (MCMA)
- Majority of leases are inflation protected and provide for recovery of maintenance, insurance and repairs
- 100% of the leases are denominated in Mexican Pesos
- Customers include well-known names such as Walmart, H-E-B, Chedraui, Liverpool, The Home Depot, Alsea, Cinépolis, Cinemex and Sports World
- 3Q20 income was 95% fixed rent and 5% parking, marketing and other variable income
- 4.7% of leases measured by annualized base rent are expected to expire in the remaining of 2020

Important Presence in Key Metro Areas

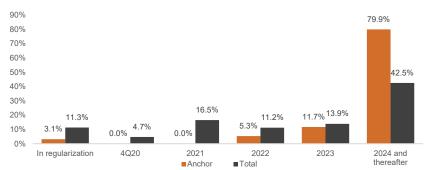

% of annualized base rent2

84% located in top three retail and office markets of Mexico¹

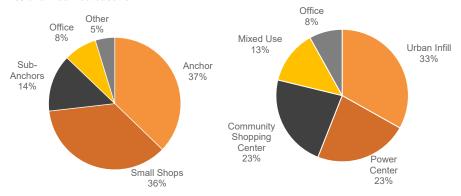

Lease Expiration Profile

% of annualized base rent

Balanced Mix of Tenant and Center Types

% of annualized base rent2

Top 10 customers represent approximately 43% of annualized base rent with a weighted average lease term remaining of 5.9 years

^{1.} Refers to Mexico City, Monterrey and Guadalajara; by annualized base rent. 2. Includes 100% of rents from properties held in a 50/50 joint venture.

Retail Leasing and Regional Overview

Average Same Store Rental Rates remained mostly flat YoY, with a slight increase of 0.3%

3Q20 Retail Leasing Highlights

- Solid quarterly lease renewal activity of 3.5k sqm contributed to a 47.4% QoQ increase in overall leasing activity
- LTM Retention decreased 1,580bps YoY and 420bps QoQ to 65.0%, due to the earlier moveout of a ~1,800 sqm entertainment tenant in City Shops Valle Dorado
- Monthly rental rates decreased 5.2% YoY and remained mostly flat QoQ at Ps.153.78 per sqm, an increase of 0.3%

Retail Segment Overview

FIBRAMQ retail portfolio is comprised of a mix of power centers, community shopping centers and urban infills

Wholly-owned portfolio

- Portfolio consists of eight properties:
 - · two power centers
 - three urban infills
 - one vacant MCMA property, future use of property being determined
 - · one community shopping center, and
 - · one mixed-use property
- Main anchors include Walmart, Sam's Club and The Home Depot

Joint Venture Properties

- · Portfolio consists of nine properties:
 - · six community shopping centers
 - · two urban infills, and
 - · one mixed-use property
- · Main anchors include Walmart, Cinépolis and Chedraui
- On a YoY basis the JV portfolio reported a drop in occupancy of 57bps and average rental rates increased 0.2%

^{1.} Excludes upfront borrowing costs which, if capitalized, are amortized over the term of the relevant loan. FX: Ps. 22.4573 per USD 2. Fixed by a corresponding interest rate swap. Term loan has a variable interest type calculated at 90-day LIBOR+2.50% p.a. spread 3. Interest only, subject to compliance with certain debt covenants 4. Lenders have recourse only to the properties, cash flows and other reserves constituted under the facilities, except under certain limited circumstances in which the lenders have recourse to FIBRA Macquarie 5. Amounts stated represent FIBRA Macquarie's proportionate share 6. 27 years amortization of principal starting in 2020 7. As of September 30, 2020, the Revolving Credit Facility had available undrawn commitments of USD180.0 million (USD tranche) and Ps.1.3 billion (Peso tranche) totaling to USDe236.1 million. Note: All interest rates are exclusive of withholding taxes.

Distribution and Guidance

3Q20 Distribution and FY20 Guidance

Authorized 3Q20 distribution of Ps 0.4750 per certificate, representing 4.4% increase YoY, and a 77.6% AFFO payout ratio for the quarter

Distribution

- Declared distribution of Ps 0.4750 per certificate for 3Q20; total amount: Ps 361.8 million¹, represents 77.6%² of AFFO for the quarter
- 3Q20 distribution represents an increase of 4.4%³ YoY
- 3Q20 distribution is expected to be paid on January 28, 2021 to holders of record on January 27, 2021. FIBRAMQ's certificates will commence trading ex-distribution on January 26, 2021

AFFO

- Updated FY20 AFFO guidance of Ps. 2.56 2.59 per certificate
- FY20 distribution guidance reaffirmed at Ps. 1.90 per certificate, with remaining FY20 quarterly distributions expected to be paid in equal instalments of Ps. 0.475 per certificate in January 2021 and March 2021, respectively
- Based on the following assumptions:
 - An average exchange rate of Ps. 21.5 per US dollar for 4Q20.
 This compares to a higher average exchange rate of Ps 22.2 per US dollar assumed in prior guidance
 - The continued relaxation of government restrictions regarding non-essential activities for the remainder of the year
 - No further deterioration in broader economic and market conditions
 - Timely collection of in-place scheduled rents, including contracted or expected deferred and discounted rents
 - · No material increases in agreed rent discounts
 - · No new acquisitions or divestments
 - No certificate repurchases

AFFO Calculation Methodology

Quarterly cash deployment of below-FFO items (namely maintenance capex, tenant improvements and leasing commissions) flat on a YoY basis, reflecting steady operations

Definitions	
NOI Item	Definition
Repairs and maintenance expense (R&M)	Scheduled or unscheduled work to repair minor damage or normal wear and tear, as well as make-ready expenses. Typically low value.
FFO Item	Definition
Transaction related expenses	Relates to business development expenses incurred during the quarter, which are expensed to P&L in accordance with IFRS.
Normalized financing costs	Incurred in connection with raising, refinancing or extinguishing loan facilities. Calculated based upon actual cash expenses in respect of each loan facility, amortized daily over the original tenor of the relevant debt facility.
AFFO items	Definitions
Normalized maintenance capex	Expenditure related to sustaining and maintaining existing property. Typically scheduled on a recurring basis based on warranty and useful life needs. Higher value than R&M. Often recoverable through the lease at cost.
Normalized extraordinary capex	Rare, unscheduled major capital works to repair damage or to replace items arising from unforeseen events such as natural disasters, accidents and vandalism. Typically eligible for insurance claims, which are netted against the costs.
Normalized Tenant Improvements (TIs)	Have similar characteristics to maintenance capex, except that the expenditure is typically one- off and is recovered through the lease generating a return.
Above-Standard Tenant Improvements (ASTIs)	Specialized, non-standard tenant improvements that would usually not be valued by another tenant or replaced/maintained after current lease. Cost is generally recovered through lease generating a return.
Third-party leasing commissions	Third-party broker costs paid on new and renewal leases
Property management platform leasing-related expenses	Costs incurred by FIBRAMQ's internal property management platform related to leasing existing GLA.
Property management platform engineering- related expenses	Costs incurred by FIBRAMQ's internal property management platform related to sustaining and maintaining existing GLA. Based on expenses allocable to maintenance capex and TIs.
Excluded from AFFO	Definition
Expansions	Investment related to the addition of new GLA for an existing property. Includes relevant internal and third-party costs.
Development	Investment related to the addition of land and related construction of new GLA. Includes relevant internal and third-party costs.
Remodeling costs	Significant appearance and/or structural changes made with the aim of increasing property usefulness and appeal. Includes relevant internal and third-party costs. Includes any material conversion of property use.

Quarterly cash deployment vs normalized methodology

Actual Cash Deployment for the three months ended	3Q20	3Q19	
	Ps. million	Ps. Million	Var (%)
Financing costs	(0.3)	(1.7)	(85.0%)
Maintenance capital expenditures	(58.0)	(42.9)	35.3%
Tenant improvements	(16.7)	(20.5)	(18.7%)
Above-standard tenant improvements	(14.0)	(2.6)	NM
Extraordinary maintenance capital expenditures, net of insurance proceeds	(4.8)	(1.4)	NM
Leasing commissions	(13.1)	(8.5)	53.8%
Internal platform engineering costs	(3.7)	(5.4)	(31.3%)
Internal platform leasing costs	(7.1)	(6.6)	8.3%
Subtotal FFO/AFFO Adjustments ¹	(117.8)	(89.7)	31.4%

Normalized Methodology			
Subtotal FFO/AFFO Adjustments ¹	(103.6)	(90.6)2	14.3%

Excludes straight linings of rents.
 Normalized financing costs in respect of debt portfolio in 3Q19 based on estimates.
 Note: NM means not meaningful.

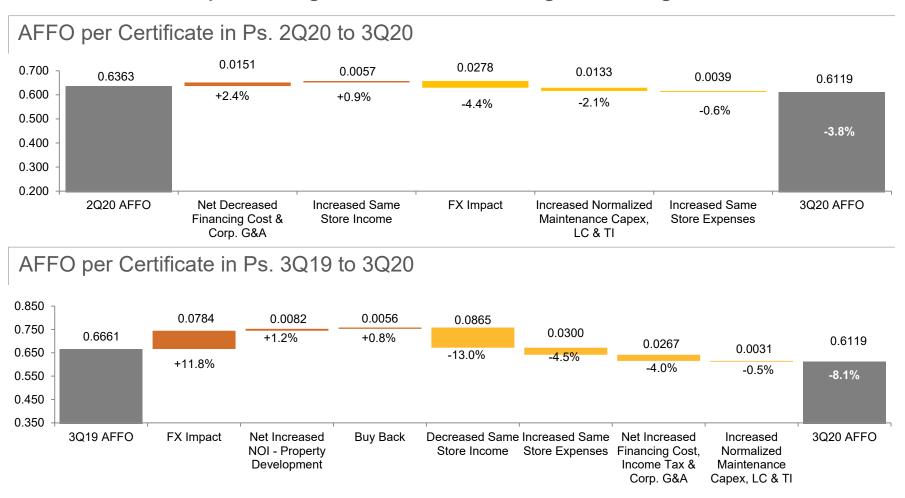

APPENDIX

3Q20 Quarterly AFFO per Certificate Bridges

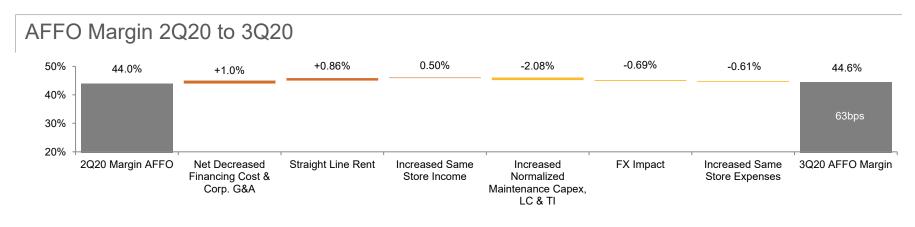

AFFO per certificate decreased 8.1% YoY driven by COVID-19 impact in 2Q20 and 3Q20, including rent discounts, increased provisioning for doubtful debts and higher financing costs due to drawn revolver

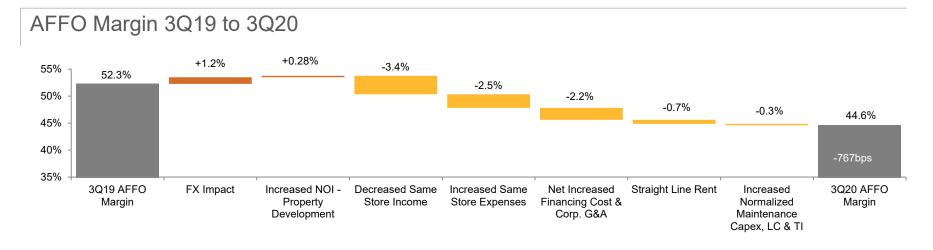

3Q20 Quarterly AFFO Margin Bridges

AFFO margin steady on a sequential basis, but lower YoY by 767bps mainly as a result of decreased same store income and increased net financing cost, partially offset by the impact of FX

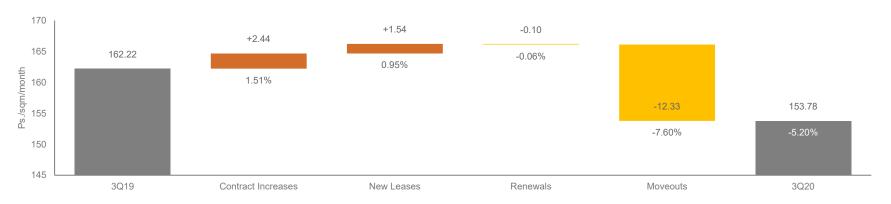

Rental Rate Bridges Year-on-Year

Industrial rental rate increases driven by contractual increases and renewals; Retail rental rates adversely impacted by large tenant move out in 1Q20, with renewal rates remaining flat notwithstanding rent relief measures (discounts and deferrals) have been agreed with many tenants

Retail Rental Rate Bridge from 3Q19 to 3Q20 (Ps.)

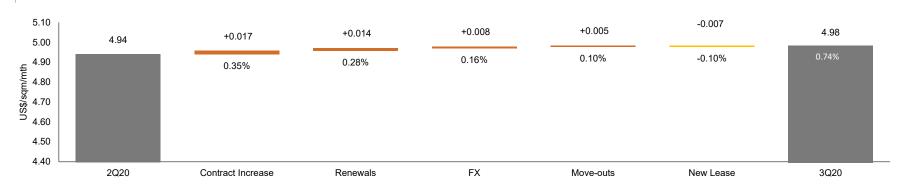

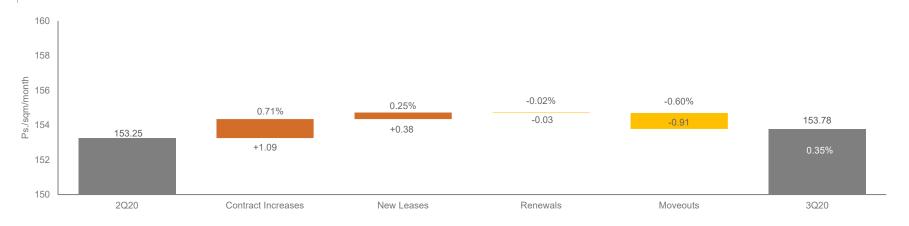

Rental Rate Bridges Quarter-on-Quarter

Industrial rental rates increases were driven by contractual increments and positive releasing spreads; Retail rental rates do not reflect rent relief provided through discounts and deferrals, and are slightly higher on account of contractual increases partially offset by moveouts

Industrial Rental Rate Bridge from 2Q20 to 3Q20 (US\$)

Retail Rental Rate Bridge from 2Q20 to 3Q20 (Ps.)

Same Store Performance per Portfolio

Industrial quarterly same store closing occupancy down 195bps to 93.9%; NOI increased by 11.7% aided by the Peso depreciation; Retail same store NOI was 22.6% lower YoY

Key Market Presence

Industrial assets in strategic manufacturing markets and retail assets in high density

- Mexico City Metropolitan Area (MCMA).
- Includes nine retail joint venture properties at 100%.

Definitions

- Adjusted funds from operations (AFFO)¹ is equal to FFO less straight-line rent, normalized maintenance capex, normalized above-standard tenant
 improvements, normalized extraordinary capex, normalized tenant improvement, normalized third-party leasing commissions and normalized leasing and
 engineering-related costs incurred by the internal property management platform, all based upon the rolling three year average of actual cash expenditure.
- AMEFIBRA defined Funds from operations (FFO) is equal to EBITDA plus interest income less interest expense, income tax and amortization of debt costs (in accordance with IFRS). Alternatively, it would be equal to FIBRA Macquarie defined FFO less normalized debt costs plus amortization of debt costs (in accordance with IFRS).
- Development Portfolio includes properties that are under development and properties that are developed but have not met Stabilization.
- Earnings before interest, tax, depreciation and amortization (EBITDA) Prospectively from 3Q20 EBITDA includes NOI less Fund-level management fees, corporate expenses, administrative expenses, transaction related expenses, professional and legal expenses, therefore, EBITDA is equal to EBITDAre. For prior periods EBITDA excluded transaction related expenses.
- Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate (EBITDAre) EBITDAre is a non-GAAP financial measure. FIBRAMQ computes EBITDAre in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to EBITDAre reported by other FIBRAs that may not compute EBITDAre in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than FIBRAMQ does. EBITDAre is defined as EBITDA (see definition above) less transaction related expenses.
- Funds from operations (FFO) is equal to EBITDA plus interest income less interest expense, income tax and normalized financing costs.
- Gross leasable area (GLA) is the total area of a building which is available for lease to external parties.
- Net operating income (NOI) includes lease-related income and other variable income, less property operating expenses (including property administration expenses).
- Net tangible asset value is calculated by subtracting goodwill, derivative financial instruments, straight line rent asset, unamortized debt costs, unamortized tenant improvements (including above-standard tenant improvements) and unamortized leasing commissions, from net assets as per IFRS.
- Occupancy is the total GLA which has been leased to a tenant under a binding agreement, as a percentage of total GLA. We do not include any GLA as leased which is not subject to binding arrangements. Occupancy percentage is calculated as the total area leased to customers divided by the total GLA
- Operating Portfolio represents properties have reached Stabilization.
- Real estate gross LTV is stated on a proportionately combined basis and is calculated as (gross debt) / (total RE assets per latest independent valuation adjusted for FX + land at cost)
- Real estate net LTV is stated on a proportionately combined basis and is calculated as (gross debt unrestricted cash asset sales receivable + tenant security deposits) / (total RE assets per latest independent valuation adjusted for FX + land at cost)

^{1.} AFFO may be calculated in a different manner by other market participants thereby limiting its usefulness as a comparative measure. The use of AFFO in the analysis of the financial performance of FIBRA Macquarie should be in addition to and not in lieu of other financial measures as required under IFRS.

Other Important Information

- Redevelopments (generally projects which require capital expenditures exceeding 25% of the gross cost basis) are placed in the operating portfolio upon the
 earlier of reaching 90% occupancy or twelve months from the completion of renovation construction.
- Regulatory LTV is calculated as defined by the CNBV (Comisión Nacional Bancaria y de Valores) (total IFRS consolidated debt + interest payable) / total IFRS consolidated assets
- Reporting Standards: our financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.
- **Retention** is calculated on the basis of renewed leases as a percentage of total expiring leases. For the purpose of this calculation, leases are deemed to expire in the period corresponding to when either the renewal lease is signed or the customer moves out, as applicable.
- Rounding: where appropriate, figures in this presentation have been rounded to the nearest decimal point. Arithmetic inconsistencies are due to this rounding.
- Same store metrics are calculated based on those properties which have been owned for a minimum period of 15 months. All properties included in same store for 3Q19 and 3Q20 have been owned and operated since, and remain so, from July 1, 2019 until September 30, 2020. Expansions of these properties are included.
- Stabilization is defined as the earlier of when a property that was developed has been completed for one year or is 90% occupied. Upon Stabilization, a property is moved into our Operating Portfolio.
- Straight-line rent is a requirement under IFRS to recognize a non-cash adjustment for the difference between the monthly rent invoiced and the average monthly rent amount (i.e. total income of all payments over the lease, including fixed escalations and rent free periods, divided by the total lease term).
- Valuations: our investment properties are included in the IFRS financial statements at fair value, supported by an external valuation as at June 30, 2020. The
 key assumptions are as follows:
 - The range of reversionary capitalization rates applied to the portfolio were between 7.50% and 10.50% for industrial properties and 8.50% and 11.00% for retail properties
 - The discount rates applied a range of between 8.50% and 11.50% for industrial properties and 9.50% and 12.75% for retail properties
