Fibra Danhos

We are a Mexican trust constituted, primarily, to develop, own, lease, operate, and acquire iconic and premier-quality commercial real estate assets in Mexico. Our objective is to provide attractive risk-adjusted returns to our CBFI holders, over the long-term, through stable cash distributions and the appreciation of our property values. We plan to maintain and grow a high-quality portfolio of properties. This, through our strong and unparalleled development capabilities and selective acquisitions of premier-quality iconic properties. We consider properties to be iconic if they have, the unique ability, to transform the areas surrounding their location. We consider properties to be premier-quality if they are located in prime locations, were developed with high construction and design standards, feature quality tenants, report high occupancy rates and, in the case of retail properties, attract a high volume of visitors and sales per square meter.

Comments from our CEO

Dear Investors,

Economic activity is on the rise. Gradually during the year, the economic activities have opened, particularly in Mexico City and the State of Mexico, where the vast majority of all our properties are located. On October 18, the "green light status" was approved for Mexico City, the State of Mexico and the City of Puebla. This situation will also contribute to accelerate "back to office" policies. As the year has progressed, the trend in flow of visitors is on the rise and we expect that is how it should behave going forward.

Revenues and consolidated NOI reached 1,199 million pesos and 969.1 million pesos respectively, showing increases of 8.6% and 8.9% compared to the same period last year and of about 2% in both cases in relation to the last consecutive quarter. Recovery in base rent continues as a result of lower COVID discounts and provisions, and higher overage and parking revenue were achieved explained by higher visitors' affluence combined with better conversion rates. NOI margin remains stable at levels of 81% that reflects a strict control over operating expenses. AFFO of 869.8 million pesos represents 0.59 pesos of AFFO per CBFI with economic rights, an increase of 28.9% compared to 3Q20 and 12.9% compared to the previous quarter. Distribution for this period determined by our Technical Committee was 0.52 pesos per CBFI, which represents a payout ratio of 88.1%.

We maintain a sound financial position, with 8.3% leverage, flexibility in our liquidity ratios and a wide and varied capacity to access funding sources to continue growing in an orderly manner. We concluded the renewal process with the "Registro Nacional de Valores" of our debt program for up to 8 billion pesos and we maintain our committed revolving facility of 2 billion pesos.

Parque Tepeyac reached a work progress of 68% and stands among the most important and ambitious real estate developments, contributing to economic reactivation and job creation. The project keeps generating great expectations and interest given its location, product & service mix and its architectural design that adapts to current market circumstances.

Today more than ever we keep our long-term vision with a firm commitment to Mexico, its fundamentals are unbeatable and with an unmatched demographic potential. Once again, I take the opportunity to thank the hard-work and commitment of our team, the advice and support of our Technical Committee, and the trust of our investors. We hope very soon we will have returned to normality and will continue with our expansion and growth plan."

6.1 Parque Tepeyac – Expected opening date (Phase I): first semester 2022

In the Technical Committee session held on July 21, 2016, Fibra Danhos' participation in a new mixed-use development in the northeast area of Mexico City was approved. The area is heavily populated and with residential and commercial vocation. On December 21, 2017, we executed a binding partnership agreement with unrelated third parties to participate in the development of a shopping and entertainment center in the north-east of Mexico City called Parque Tepeyac. The participation of Fibra Danhos in the project is 50%.

The project will be developed in several plots of land with a total combined area of approximately 51,700 sqm. during the first semester of 2021, an area of approximately 3,417 sgm was acquired, increasing the surface. Fibra Danhos will be in charge of the design, construction, marketing and operation of the project. The GLA of Fibra Danhos (50%) will be approximately 35,000 sqm. The estimated net investment of Fibra Danhos will be approximately 1,800 billion pesos, including land, out of which we have invested 1,449 million pesos to date.

Construction work at Parque Tepeyac has been reactivated complying with the new required protocols for sanitation and safety. Lease progress continues with high expectations and global work progress reached 67.5%. The shopping center will have more than 120,000 sqm of retail area including Liverpool, Sears, Cinépolis, a self-service store and we are in the process of defining the anchor entertainment concept There is a great interest on the part of our business partners to participate in the project and we continue making progress in the execution of lease agreements.
