#### **Fibra Danhos**

We are a Mexican trust formed primarily to develop, own, lease, operate, and acquire iconic and premier-quality commercial real estate assets in Mexico. Our objective is to provide attractive risk-adjusted returns to holders of our CBFIs over the long-term through stable cash distributions and the appreciation of our properties. We will seek to maintain and grow a high-quality portfolio of properties, through our strong and unparalleled development capabilities and selective acquisitions of premier-quality and iconic properties. We consider properties to be iconic if they have the unique ability to transform the surrounding areas in which they are located, and we consider properties to be premier-quality if they are located in prime locations, were developed with high construction and design standards, feature quality tenants, report high occupancy rates and, in the case of retail properties, attract a high volume of visitors and sales per square meter.

#### **Comments from our CEO**

"Given the continued global economic slowdown, affected by geopolitical and commercial factors, there were adjustments in the monetary policy of several countries during the third quarter, highlighting two reductions in the reference funding rate of the United States and Mexico that in both cases amounted to a half percentage point. This downward adjustment seeks to promote investment, growth and maintain dynamism and consumer confidence, while maintaining the stability of purchasing power.

In the third quarter, we reported total revenues and a consolidated NOI of 1,451.4 million pesos and 1,180.4 million pesos respectively, which represent a year over year growth of 11.8% and 14.0%, respectively. Our Technical Committee approved a quarterly distribution of 62 cents per CBFI based on an AFFO per CBFI with economic rights of 70 cents. The accumulated distribution in the third quarter represents a 2.8% growth against the previous year, in line with the projected inflation for the year.

We continue working at Parque Tepeyac, our development located northeast of the CDMX in the Gustavo A. Madero delegation. The work registered a global progress of 10%, we have a 40% progress in the excavations and foundations, and a 4.5% progress in civil works. The development has generated great retail expectations, which is reflected in letters of intent from our main retail partners and other important groups interested in participating in this great project. We remain attentive to new growth opportunities, which can be addressed without affecting our distribution capacity and maintain prudent balance management, with a leverage of only 10% that will be further strengthened in December with the payment of the short-term bond and that will give us the financial flexibility to continue growing.

Six years after the IPO, Fibra Danhos has been consistent with its vision of development, reporting growth and maintaining operational efficiencies that result in a growing cash flow generation and in stable distributions. Our results show the strength and resilience of our portfolio, maintaining stability and operational consolidation trends throughout 2019. Since October 2013, we have generated expectations and delivered results; we have the recognition of the investment community. I take this opportunity to thank our great team of collaborators, our directors and shareholders. I reiterate our and confidence in the country, our commitment to increase the long-term value of our portfolio and to continue investing in Mexico."

## 3.1 Operating revenue

**Total operating revenue:** Amounted to 1,451.4 million pesos in 3Q19, which represents an increase of 11.8% with respect to 3Q18. This increase is primarily due to the incorporation of Parque Las Antenas and the entrance of new tenants in Toreo's office space and Parque Puebla as well as same property revenue increases.

**Overage:** Amounted to 49.4 million pesos during 3Q19, which represents a variation of 9.5% with respect to 3Q18. **Cash inflow from Tenant Admission Payments:** We collected 36.9 million pesos during 3Q19 mainly from Reforma 222, Parque Las Antenas, Parque Lindavista and Parque Delta.

**Accounting revenue from Tenant Admission Payments:** Amounted to 109.4 million pesos in 3Q19 and represents an increase compared to the 100.0 million pesos reported in 3Q18, primarily because of the amortization of TAP's collected in prior periods in Parque Delta, Parque Puebla and Parque Las Antenas.

**Parking revenue:** Amounted to 117.8 million pesos during 3Q19, which represents an increase of 11.1% with respect to 3Q18. This performance is due to the incorporation of the parking spaces in Parque Las Antenas.

During 3Q19, the Advisory Fee amounted to 13.36% of our Net Operating Income while in 3Q18 it represented 15.01%.

**Property Tax and Insurance:** Amounted to 34.2 million pesos and 8.9 million pesos, which represent variations of 5.0% and 2.2%, respectively, with respect to 3Q18.

In the case of property taxes, the variation is mainly due, on one hand, to the increase in assets for the base for the calculation and, on the other hand, for adjustments in the calculation in Parque Tezontle, were we were able to achieve a reduced rate by complying with certain environmental milestones.

In the case of insurance, the variation is due to the fact that at the end of 3Q19 the amortization of the insurance against a fire in each one of the places is not yet contemplated. The cumulative increase during the first half of 2019 was 5.0% compared to the first half of 2018.

**Administrative Expenses:** Amounted to 27.3 million pesos, which represents a decrease of 6.6% compared to 3Q18. This decrease is mainly due to certain administrative expenses related to our debt issuances including fees of the rating agencies, annual listing commissions that are being amortized during 2019.

## 3.3 NOI, EBITDA, Net Income, FFO and AFFO

**Net Operating Income:** Amounted to 1,180.4 million pesos in 3Q19, which represents an increase of 14.0% with respect to 3Q18, this increase is mainly explained to the incorporation of Parque Las Antenas, Parque Puebla, as well as a same property NOI increase of 4.8%.

**EBITDA**: Amounted to 995.4 million pesos in 3Q19, which represents an increase of 16.5%. The EBITDA margin was 68.6%%, higher than the 65.8%% margin reported in 3Q18.

**Net Income, FFO and AFFO:** Amounted to 776.4 million pesos, 877.5 million pesos, and 997.9 million pesos, respectively, in 3Q19. ## 6. Current Development Portfolio and Growth Plan

We have fulfilled 100% of the development commitments made during our IPO and have drastically reduced development risk for the Fibra. To date, only 4% our Portfolio is under development where as 96% is under operation and stabilization. We have started pre-construction work in Parque Tepeyac. We have more than tripled the GLA of our Initial Operating Portfolio 3.3 times and have added more than 500,000 square meters of premier quality GLA since October 2013.

## **Expected GLA evolution (operation vs. development)**

## 6.1 Parque Tepeyac – Expected opening date (Phase I): 2021

In the Technical Committee session held on July 21, 2016, Fibra Danhos' participation in a new mixed-use development in the northeast area of Mexico City was approved. The area is heavily populated and with residential and commercial vocation. On December 21, 2017, we executed a binding partnership agreement with unrelated third parties to participate in the development of a shopping and entertainment center in the northeast of Mexico City called Parque Tepevac. The participation of Fibra Danhos in the project is 50%.

The project will be developed in several plots of land with a total combined area of approximately 51,700 sqm. Fibra Danhos will be in charge of the design, construction, marketing and operation of the project. We also executed an investment agreement with the Liverpool department store in order for it to join the project as an anchor store and we have executed an agreement with a cinema chain for their participation. We are in talks with sub-anchors and other concepts for their incorporation into the project.

The activity of agency windows in CDMX has restarted after a temporary shutdown and we obtained the necessary permits and licenses for Parque Tepeyac, we have resumed the works. About 3,000 temporary work places will be generated and once completed, 4,000 permanent places will be created.

The estimated total commercial area of the project will be approximately 108,000 sqm, including anchor stores and the gross leasable area of Fibra Danhos (50%) will be approximately 35,000 sqm. The estimated net investment of Fibra Danhos will be approximately 1.8 billion pesos, including land. Parque Tepeyac has the necessary urban and environmental impact studies and has its construction rights paid.
