REVENUES

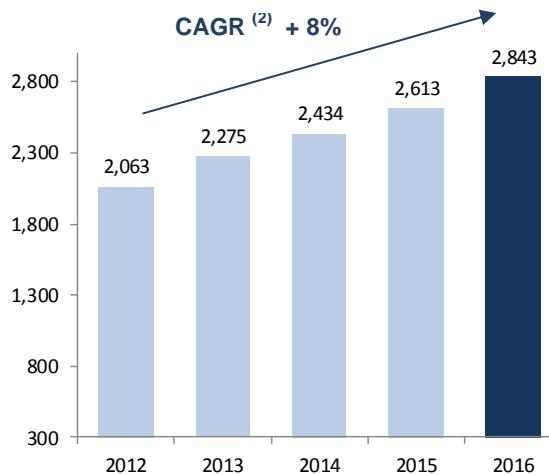

The fourth quarter of 2016 was a period with a high volatility, mainly due the US presidential elections results and the increase of the Fed's interest rate in 25 basis points. Meanwhile in México the exchange rate reached a high of 21.05 pesos per U.S. dollar and Banco de México twice increased the reference interest rate up to 5.75% at the end of 2016. In this context, BMV Group's **revenues** for the fourth quarter of 2016 were 13% higher than the fourth quarter of 2015. In the accumulated result for the year, revenues grew 231 million pesos or 9% against 2015.

Cash Equities

During the fourth quarter of 2016 the **cash equities** business had an excellent performance. Revenues from **cash equities trading** grew 18 million pesos or 31% against same last year's quarter. The factor that most contributed to this performance was the daily average traded value (DATV) which grew from 12,053 million in 4Q15 to 16,506 million pesos in the 4Q16, an increase of 37%.

November 2016, the month of US presidential elections, was the month with the highest DATV reaching 22,774 million, 69% of the value is from transactions in the local market and 31% from the global market SIC. Additionally, on the 30th of November we reached a record 787,328 transactions (versus a 2016 daily average of 292,247). This shows the reliability of our technology.

In the fourth quarter of 2016 the global market (SIC) had higher growth than the local market. In the first, daily average traded value grew 52% against the same quarter in 2015, while the local market grew in 31%. This is explained, mainly, due the exchange rate movements during the period.

In 2016, the daily average traded valued grew 13%. The global market showed a higher growth than the local market, with an increase of 20%. This allowed higher accumulated revenues for the year with a rise of 30 million pesos or 13%.

In the quarter, **cash equity clearing (CCV)** also showed increased revenues in 13 million pesos or 27% against 4Q15 due to a higher activity of exchange traded securities.

In 2016, **CCV** also presented higher results in 22 million pesos or 12% than the figures reported in 2015 due to a higher DATV during the year, especially in the third and fourth quarters.

Derivatives

During the fourth quarter of 2016, revenues for **derivatives trading (MexDer)** were 24 million pesos, 6 million or 30% more than the fourth quarter of 2015. Even though, total futures daily average traded volume for the quarter was lower in 19% than the observed in 4Q15, revenues for this business grew due to:

- 1) The growth in USD futures trading, against the same quarter of 2015. These contracts have higher fees than the TIIE 28 futures, which had the highest decrease in the daily average traded volume against 4Q15.
- 2) The increased TIIE 28 swap trading, whose daily average traded volume was 37,911 contracts, higher than 4Q15 when was 1,308. The traded notional value for this swap went from 7,576 million pesos in the 4Q15 to 235,050 million pesos in the same period of the present year.

In 2016 results, revenues for **MexDer** showed an increase of 17 million pesos or 25%, explained by:

- 1) Higher trading of the TIIE28 swap
- 2) Increased Bonds' Futures trading
- 3) Recovery in the daily average traded volume of the USD future
- 4) Collection of past due accounts in the first quarter of the year

(1) Million pesos

In the meantime, during 4Q16, revenues for **derivatives clearing (Asigna)** amounted 36 million pesos, 18 million pesos or 104% over the same period of 2015. This is mainly explained by the rise in margin deposits caused by the increase in MexDer's trading activity of the TIIE 28 swap. It is important to remember, that Asigna charges 2 basis points on the average margin deposits and different settlement fees based on the traded type of contract.

For 2016, Asigna's revenues grew against 2015 in 37 million pesos or 50%, mainly due the increase in clearing of TIIE 28 swaps, Bonds futures and USD contracts.

OTC Trading (SIF ICAP)

In 4Q16, **revenues for SIF Icap** were up to 134 million pesos, superior in 13% or 15 million to the same period in 2015. This is explained by 18 million pesos or 31% higher revenues in Sif Icap Chile due a higher trading in swaps and government debt and the impact of exchange rate movements.

In the year's results for **SIF Icap**, revenues are higher in 15 million pesos or 3% against the same period in 2015. Sif Icap Chile is the business that contributes the most to this increase.

Issuers

During the fourth quarter of the year, **listings revenues** reached 42 million pesos; 7 million or 15% less than the same quarter of 2015. This is explained mainly by a lower issued amount in short (-2% vs. 4Q15) and long term (-32% vs. 4T15) debt instruments. However it is important to note that during the fourth quarter of the year we had a follow on from IENOVA for 30,400 million pesos and the issuance of the first FIBRA E by Infraestructura Viable S.A. de C.V.

For 2016, revenues for **listing fees** amounted 102 million pesos, 0.02% less than the observed as of December 2015, this lack of growth is due to higher volatility that postponed some listings, especially in the third and fourth quarters.

It is important to note that in spite of the low listing activity at the end of 2016, at the beginning of 2017 we are seeing a recovery with the public offerings of José Cuervo and Grupo Cementos Chihuahua.

On October 14th 2016 there was the first FIBRA E listing for an amount of 12 billion pesos. With the ticker “FVIA 16” the Fibra Vía is created for infrastructure projects.

Maintenance fees

On the other hand, during the quarter, **maintenance fees** grew 7% against the same period in 2015, mainly explained by the listings in past years.

Up to December 2016, **maintenance fees** showed a growth of 6% over the same period in 2015, this is also caused by the listings in past years that now are paying maintenance fees.

Custody

Indeval's revenues were up to 140 million pesos for the 4Q16; this is 9 million pesos or 7% more than the 4Q15. This is mainly a consequence, of higher revenues in international sub custody caused by a more dynamic global market (SIC) and a higher exchange rate peso/dollar.

For the full year 2016, the revenues for this business grew 22 million pesos or 4%. This is caused by the motives mentioned above, especially during the third and fourth quarters. It is important to remember the extraordinary fees (8 million pesos) received by Indeval in the second quarter of 2015 from the organization of a World Federation of Custodians (WFC) event.

Information Services

Revenues in 4Q16 were 97 million pesos, higher in 7% or 6 million pesos to the same quarter in 2015. This is explained mostly by higher revenues in **market data** for 6 million pesos or 13% thanks to new clients, the price strategy and the impact of the depreciation of the peso against the US dollar.

During the year, revenues for **information services** grew in 12%, mainly explained by growth in **Valmer** of 16 million pesos and in **market data** by 26 million pesos.

EXPENSES

Total expenses for the fourth quarter were 376 million pesos, with an increase of 27 million or 8% against 4Q15. The main reasons for this increase are:

- 1) An increase in **personnel expenses** for 27 million pesos or 15%, due to extraordinary severance payments and bonuses, also seasonal year end expenses.
- 2) Higher **sub-custody fees**, with an increment of 8 million pesos or 42% due higher activity in the global market (SIC) and the increase in the exchange rate.
- 3) More **consulting fees** in 2 million pesos or 15% against the same quarter of 2015. This is mainly explained with seasonal expenses in MILA, sustainability advisory, market maker services and extraordinary consulting fees.
- 4) Higher **depreciation expenses**, explained by the advanced depreciation of systems in Asigna and the beginning of the depreciation account for new systems in Asigna and Valmer.

In 2016 **total expenses** grew 39 million pesos or 3% against 2015 reaching the goal to keep the total expenses increase below the reported inflation of 3.4%. Most of the increase in expenses is explained by services with costs in US dollars (which had an appreciation against the peso of 16%), like **technology expenses** (+33 million pesos vs, +13%) and **international sub-custody expenses** (+16 million pesos, +24%). Additionally the reduction in personal expenses, rent and maintenance and others contributed with 19 million pesos in savings.

Complete Consolidated Results tables for 4Q16 and 2016 are in pages 12 and 13

Explained by higher revenues, **operating income** grew 58 million pesos or 17% in comparison with 4Q15. This performance is similar for accumulated **operating income** of the year, in which we can observe growth of 15% against last year's figure.

Comprehensive financing income had a positive result by 20 million pesos, explained by interests earned and the depreciation of the peso against the US dollar that impacted the reserves in US currency.

The **tax rate** was 31% at the end of the fourth quarter of 2016 in comparison with a tax rate of 32% for the same last year's period. If the effect of the goodwill impairment is considered, the tax rate for 2015 is of 50.2%.

The **net income** for 4Q16 was 264 million pesos, 26% higher against 4Q15 without the effect of the goodwill impairment. Considering the effect of the goodwill impairment in 4Q15 growth for 4Q16 net income is 197%.

For 2016, without the effect of the goodwill impairment in 2015, **net income** grew 21% reaching 968 million pesos a new record high for the yearly figure. Considering the effect of the goodwill impairment, net income growth is 42%.

With these results we exceeded the guidance for the year of a net income between 880 and 900 million pesos and an EBITDA margin between 49.5% and 50%.
