**Cash equity clearing (CCV)** registered revenues for 58 million pesos for the quarter, 2 million or 5% higher than the first quarter of 2021. The difference between the revenue growth in equity trading and clearing is due to the number of cross trades of the period and the changes in the fee criteria in 2021.

It is important to mention that cross trades only require registering, but not clearing. CCV serves as the Central Securities Counterparty for all equities traded in Mexico. The ADTV of both Stock Exchanges during 1Q22 was 23,614 million pesos, 13% higher than the same period of the previous year.

## Derivatives

Revenues for the first quarter of 2022 in **Derivatives trading (MexDer)** reached 26 million, which showed an increase of 6 million or 32% compared to 1Q21. This revenue was the result of higher trading in dollar futures, longer average tenor traded of TIIE Swaps, and the updated fee schedule for block transactions.

The number of listings in short and long-term debt markets was -9% and 167% compared to 1Q21, with a higher amount placed at 4% and 130%, respectively. Between 2009 and 1Q22, there were 119,708 million pesos placed broken down into: 37,065 million in real estate, 30,893 million in private equity, 23,158 million in infrastructure, 16,821 million in energy and 11,771 million in financial assets.

### Maintenance fees

The **maintenance fees** were 113 million pesos for the first quarter of 2022, 2 million or 1% below 1Q21. This result is explained by lower listings last year and early debt amortizations, which do not generate maintenance fees starting 2022.

### Central Securities Depository

Revenue in **Indeval** increased 31% or 95 million pesos to 407 million for the first quarter of 2022. It is important to highlight a non-recurring entry of 97 million pesos for the prescription of liabilities in one of Indeval's dollar accounts. In the future we do not expect to report additional revenue from the prescription of liabilities. Excluding this concept, Indeval recorded a similar revenue to that of the first quarter of 2021.

The average value of the assets under custody increased 8% and 13% in the local and global market (International Quotation System - SIC), respectively. On the other hand, services related to the global market - SIC (cross-border transactions/dividends/formats) registered lower revenue compared to 1Q21 due to the lower volatility in the peso/dollar exchange rate where brokers did not need to perform as many cross-border transactions and unusual movements in some securities (i.e. GameStop) during the first quarter of last year.

**Market Data** revenues increased by 17% or 19 million pesos to 132 million in the first quarter of 2022 due to sales with new international clients, growth in the number of terminals for retail investors, new services and reference data products, and fee increments. As for **Valmer**, revenues were 44 million pesos, 2 million or 4% higher than 1Q21 mainly explained by derivative valuation services.

## EXPENSES

**Total expenses** for the first quarter of 2022 were 449 million pesos, 6 million or 1% lower than to the first quarter of 2021.

This increment is explained by the following items:

- a) **Personnel** decreased 12 million pesos because of the corporate restructuring in June 2021. The expense in 1Q22 was 217 million pesos and it includes annual salary increments.
- b) **Rent and Maintenance** up 1 million pesos due to higher expenses in BMV's building as personnel returns to the office.
- c) **Consulting Fees** were up 5 million pesos because of information security services for the Security Operation Center (SOC) and the segregation of Post-trade's infrastructure.
- d) **CNBV** increased 600 thousand pesos or 7%, in line with the inflation rate reported by INEGI.
- e) **Others** decreased 1 million pesos due to a lower provision for the option to purchase the remaining shares of SIF ICAP Chile since the period got extended to 2027.
